Entry requirements This course is for complete beginners.

Course Intent 3D printing is one of the newest technologies to hit our homes. This course will take you through each stage of the process from design and programming through to the creation of your own, unique model. You will use 3D modelling techniques to design your model using free software and design tools before learning to use the printer itself to build your final model.

How will the course be delivered? You will be working with your tutor and other students online in a Google Classroom. This will involve a regular video meeting every week, using the Google Meets app, with supporting learning resources in the virtual Google Classroom. We will supply you with a login and password when you enrol, and we can provide telephone support to help you to get into the virtual classroom on your computer.

Will I need to study or practise outside the classroom? It is always useful to practice your skills between sessions. Your tutor may set some home learning for you to practice.

How will I know I'm making progress? Your tutor will set objectives for each session and give feedback on how you are progressing. You will agree personal targets as part of your Individual Learning Plan (ILP), and you will review your targets throughout the course to check your own progress.

What will I need for the course? You will need either a computer with Google Chrome or a Smart device (phone/tablet) with Google Chrome and the Google Meet apps installed and access to WIFI.

Please bring a pen and notepad to each session.

Progression Look out for information regarding follow on courses. Learning Advisers will be happy to provide you with information on your next steps after this course. Visit our website at www.ouresouthwest.co.uk or contact us on 01752 660713 to discuss or to make an appointment.

Please Note Most courses attract a subsidy from the Education and Skills Funding Agency and can be used to match funding for ESF. It is a requirement of the ESFA that you complete various forms at different stages of your course, further information is available on request. Courses are subject to a minimum number of enrolments and could be cancelled if recruitment is low. In some cases, an alternative class at a different location may be offered. Room numbers are subject to change - please check when you arrive at the venue.
