

Course Information Sheet

Art Takeover: 3D Design

Dive into the world of 3D design with Blender! This four-week workshop series will equip you with the skills to create your own 3D models, from concept to textured and lit final product.

Course Description: Unleash your creativity in this immersive 3D design workshop series using Blender, a powerful, free 3D creation suite. Learn the fundamentals of 3D modeling, sculpting, texturing, and lighting as you bring your imagination to life. No prior experience is needed – just a passion for creativity and a desire to explore the exciting world of 3D design!

What will I learn?

- Week 1: Master Blender's interface and essential tools, including sculpting and modifiers.
- Week 2: Create a variety of 3D models, from simple shapes to complex objects.
- Week 3: Explore texturing techniques to add color, detail, and realism to your models.
- Week 4: Learn how to set up dynamic camera angles and lighting to showcase your 3D creations.

How will I be assessed?

- Formative: Continuous feedback on your 3D modeling techniques, creative problem-solving, and project development throughout the workshops.
- Summative: Presentation of your final 3D model, demonstrating your proficiency in Blender and your artistic vision.

Who is this course for?

This workshop series is designed for anyone interested in exploring the world of 3D design, regardless of prior experience.

Who is your target audience?

- Aspiring 3D artists and designers
- Game developers, animators, and visual effects artists
- Hobbyists and creative individuals seeking to expand their skillset
- Anyone with a passion for technology and digital art

Progression Opportunities:

- Further study options will be available through OCSW.

Career or Job Enhancement Pathways:

- 3D modeler for games, films, or animation

- Product designer or industrial designer
- Architectural visualization artist
- Freelance 3D artist or designer

How do I enrol?

The quickest way to enrol is online at www.oncoursesouthwest.co.uk, simply create an account and select 'Enrol now'. Alternatively, if you have any questions, please call our friendly customer service team on 01752 660713.

How will the course be delivered?

This is a practical course, and the sessions will include tutor-led demonstrations, learner-led group activities, instruction and repetition. These will form part of the delivery together with one-to-one support as required.

Will I need to practise outside the classroom?

You will be encouraged to review your notes between lessons to ensure maximum benefit from your course. It is always useful to practise your skills between sessions. Your tutor may encourage home learning, or independent research.

How will I know I'm making progress?

During the first session, your tutor will discuss your goals and current level in relation to the course. Based on this assessment, you will agree individual targets which you will record in your individual learning plan (ILP). You and your tutor will review your targets regularly to ensure that you are making progress; these will be written in your individual learning plan.

What will I need?

Please bring a notepad, and pen to each session. You may wish to bring a file for any handouts. A laptop with internet access is required for completion of coursework and home learning outside of the classroom.

Please note:

Most courses attract a subsidy from the Education and Skills Funding Agency (ESFA). It is a requirement of the ESFA that you complete various forms at different stages of your course, further information is available on request. Courses are subject to a minimum number of enrolments and could be cancelled if recruitment is low. In some cases, an alternative class at a different location may be offered.
