Sharpen maths skills and build place value understanding through engaging card games in our one day workshop!

Course Description:

Tired of the struggle to make maths fun? Join our "Fun with Card Games" workshop! This engaging session explores the power of card games to transform maths practice into a relaxed and enjoyable activity. We'll delve into the world of place value, a fundamental concept, and discover how simple card games can solidify this understanding in a visual and playful way. Through various games and activities, participants of all ages will gain confidence with mental maths calculations, making learning an enriching experience.

What will I learn?

- Explore a variety of engaging card games that strengthen place value skills.
- Discover how common card games can be utilised for effective maths practice.
- Develop strategies for incorporating card games into fun and stimulating learning activities.
- Gain confidence and improve mental maths calculation abilities.

How will I be assessed?

This workshop will leverage both formative and summative assessments to measure learning. Throughout the session, active participation in games and discussions will be observed to gauge understanding. To solidify key takeaways and assess the overall learning experience, a short reflection activity will be conducted at the conclusion of the workshop.

Who is this course for?

This course is designed for parents and families who want to make maths learning fun and engaging for their children. Whether you're a parent looking for innovative home support ideas, a family seeking enjoyable activities to build place value skills together, or a caregiver hoping to make maths practise positive and relaxed, this course has something for you!

Progression Opportunities:

This workshop provides a strong foundation for further exploration of game-based learning strategies. Consider enrolling in courses on educational game design or exploring resources on maths pedagogy that utilise games for instruction.

Career or Job Enhancement Pathways:

This course can open doors to various opportunities:

- Tutor: Equip yourself with fun and effective maths practice methods to enhance your tutoring sessions.
- After-school program facilitator: Introduce engaging card games into after-school programs to make learning maths enjoyable.
- Homeschooling parent: Enhance your homeschool curriculum with interactive card games that solidify maths concepts.
- Camp counsellor: Integrate game-based learning into camp activities to keep learning fun and engaging.

How do I enrol?

To apply for this course online at www.ourcoursesouthwest.co.uk and simply click on the 'How to Enrol' button and complete the Enrolment Form and one of our customer service team will be in touch or call to speak to one of our friendly Learning Advisors on 01752 660713.

How will the course be delivered?

This is a practical course, and the sessions will include tutor-led demonstrations, learner-led group activities, instruction and repetition. These will form part of the delivery together with one-to-one support as required.

Will I need to practise outside the classroom?

You will be encouraged to review your notes between lessons to ensure maximum benefit from your course. It is always useful to practise your skills between sessions.

How will I know I'm making progress?

During the first session, your tutor will discuss your goals and current level in relation to the course. Based on this assessment, you will agree individual targets which you will record in your individual learning plan (ILP). You and your tutor will review your targets regularly to ensure that you are making progress; these will be written in your individual learning plan.

What will I need?

Please bring a notepad, and pen to each session. You may wish to bring a file for any handouts. A laptop with internet access is required for completion of coursework and home learning outside of the classroom.

Please note:

Most courses attract a subsidy from the Education and Skills Funding Agency (ESFA). It is a requirement of the ESFA that you complete various forms at different stages of your course, further information is available on request. Courses are subject to a minimum number of enrolments and could be cancelled if recruitment is low. In some cases, an alternative class at a different location may be offered.
