	Fee	£0
	Materials	£0

[OCSW WL02E41A Parent and Child Summer Science Discovery \(oncoursesouthwest.co.uk\)](https://oncoursesouthwest.co.uk)

Ignite your child's curiosity and embark on a fun-filled exploration of science together in this interactive workshop.

Course Description:

Unleash the inner scientist in your child and yourself! This engaging workshop is designed for parents and carers to learn alongside their children (ages 5-10) through exciting, hands-on science activities. Explore the wonders of the world around us, from building erupting volcanoes to dissecting a flower, all while fostering a love of science and discovery. No prior scientific knowledge is needed, just a sense of curiosity and a willingness to get messy!

What will I learn?

This one-day workshop will be packed with interactive activities designed to spark your child's imagination and teach key scientific concepts.

- **Explore the properties of matter:** Experiment with states of matter, build slime, and learn about chemical reactions.
- **Unleash your inner engineer:** Design and construct bridges, explore the science of flight, and learn about forces and motion.
- **Become a nature detective:** Investigate the world around you, dissect a flower, and learn about the different parts of a plant.

How will I be assessed?

This course is designed to be a fun and engaging learning experience for both parents and children. There are no formal assessments, but formative assessment will be incorporated through observation and participation in the activities.

Who is this course for?

This course is perfect for parents, carers, and their children (ages 5-10) who are curious about the world around them and want to learn together in a fun and interactive way.

Progression Opportunities:

After completing this workshop, you and your child can continue your scientific journey by exploring online resources, visiting museums and science centres, or enrolling in after-school science clubs.

Career or Job Enhancement Pathways:

This course can be a stepping stone towards careers in various scientific fields, such as:

- **Biology Teacher**
- **Environmental Scientist**
- **Chemical Engineer**
- **Science Lab Technician**

How do I enrol?

To apply for this course online at www.oucoursesouthwest.co.uk and simply click on the 'How to Enrol' button and complete the Enrolment Form and one of our customer service team will be in touch or call to speak to one of our friendly Learning Advisors on 01752 660713.

How will the course be delivered?

This is a practical course, and the sessions will include tutor-led demonstrations, learner-led group activities, instruction and repetition. These will form part of the delivery together with one-to-one support as required.

Will I need to practise outside the classroom?

You will be encouraged to review your notes between lessons to ensure maximum benefit from your course. It is always useful to practise your skills between sessions.

How will I know I'm making progress?

During the first session, your tutor will discuss your goals and current level in relation to the course. Based on this assessment, you will agree individual targets which you will record in your individual learning plan (ILP). You and your tutor will review your targets regularly to ensure that you are making progress; these will be written in your individual learning plan.

What will I need?

Please bring a notepad, and pen to each session. You may wish to bring a file for any handouts. A laptop with internet access is required for completion of coursework and home learning outside of the classroom.

Please note:

Most courses attract a subsidy from the Education and Skills Funding Agency (ESFA). It is a requirement of the ESFA that you complete various forms at different stages of your course, further information is available on request. Courses are subject to a minimum number of enrolments and could be cancelled if recruitment is low. In some cases, an alternative class at a different location may be offered.

Terms and conditions are available at
